The copious showers have kept the streams all full and log driving has been pushed with energy. There seems to be no doubt about all being got out of the different streams and brought down. The supply will be ample to keep the mills all running to their full capacity.

A week or so since we stated that P. Sullivan intended making 600,000 or 700,000 brick this season. By the time the item got to Alpena it had increased to 6,000,000 brick. We believe that in the course of time Mr. Sullivan may reach that amount, but his ideas are not so large for this season.

The little folks of the Congregational Sunday school had a happy time at the Town Hall, Wednesday evening. A bountiful supply of ice cream and cake had been provided and the evening was spent in playing and singing. Some of the larger folks seemed to enjoy the occasion about as much as the smaller ones.

The boom of the Cheboygan Lumber Company, at Swartz bay, broke last Monday night and let about 700,000 feet of logs loose. They floated down, filling the canal and lock and the river above the dam full up as far as the bridge at John F. McDonald's. The company had to make preparations for taking care of them at their new mill, and they were run down Thursday forenoon.

Lake House, is approaching completion. The third and fourth floors have been finished with the exception of hanging some doors. The plastering upon the first and second stories is on with the exception of the hard fluish, which has been delayed for lack of lime. There is plenty of the latter to be had now, and it will not be long before the work will be completed.
